Enabled Cruisers to Intern at Newport News and Now Helps Submarines.

Through use of the secret wireless evice submitted to the German Government by Dr. L Kitsee of Philadelphia, exclusively reported yesterday in The Evening World, it is now charged that the German cruisers Eitel Frederich and Kronpring Wil- versary. helm were enabled to get through the guard of British cruisers and intern at Newport News last spring.

Associates of Dr. Kitsce said to-day that they believe the extensive use of the tapless wireless is being made by the German Government. The principal practice alleged is communicating with ships at sea, especially from German stations to sub marines operating around the British

method of communication that the German submarines could have got past Gibraltar and to the Dardanelles. where they have caused much damage to the allied fleet. No vessel could have possibly penetrated the screen of guard ships extending far out to sea, unless warned and kept advised of their positions. The submarines are not capable of running long enough under water to have passed through the Gibraltar zone.

Absolute secrecy is being maintained at the German wireless station at Sayville, Long Island. The German Embassy makes formal denial tht the station is being used for sending trans-Atlantic messages, although numerous messages are received there.

Dr. Kitsee has engaged counsel to push his complaint against the German Government. He has not been able to obtain any definite satisfaction, either in the agreed-upon purchase price of \$50,000 or decision of the Berlin authorities as to whether they accept or reject it. Meanwhile his secret and the possibility of its use has been in possession of the German Embassy here and their wire-les experts since last February. **News Odditics**

Three! Count 'em! Grace, Marie and Lois

Grace Canand dois Weber

A variegated trio of actorines who succumed to the Siren lure of the Universal and signed themselves away for use in the Silent Drama. Look at 'em! Three ladies who reek with brains and ability and who can play anything from a banjo to Uncle Tom's Cabin. They are links in the Universal Chain now and they will help the chaps and chappesses below to put on features and double reelers for the Universal program.

Other links; Henry E. Dixey, Nat C. Goodwin, Emmet Corrigan, Lawrence D'Orsay, Chas. E. Evans, Ward & Vokes, Frank Keenan, Wilton Lackaye, Helen Ware, Blanche Walsh, Florence Reed, Henrietta Crossman and a score of other high-class Broadway aristocrats who tremble and shake with talent. Did you ever see such a bunch? Talent! Holy Smoke! We've got talent and stars to burn. Watch the program.

We've dickered with the best brand of foreign and domestic authors and writers. Every one is tagged with the insignla of Book Writin' and we've not only got the authors to write new stuff but all the best sellers they ever wrote. The Universal will show you what the moving picture business ought to be and it's doing this because it believes the public wants it done. Hello Public! Keep your eye peeled for the Universal program.
